

COVID 19 - CONSTRUCTION JOB SITES  
MANDATORY COMPLIANCE GUIDELINES  
UPDATED 03.26.2020

**Jobsites not adhering to the guidelines  
below will be shut down until further notice.**

Construction is unique in that job sites for projects are closed to the public, the onsite traffic and population is a controlled environment, and much of the work can be done in an environment that is open air, or open to the air. The following best practices are being implemented effective immediately:

1. Conduct all morning jobsite meetings outside the trailer, with only key personnel, keeping six feet distance and no more than 10 people in a group per CDC's guidelines.
2. Frequently wash your hands with soap and warm water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
3. Provide and require use of hand sanitizer before entering a job site and leaving a job site.
4. Provide facilities and procedures for proper disposal and removal of used leaning supplies and personal protective equipment.
5. Use personal protective equipment such as gloves, goggles/glasses, and respiratory protection.
6. Ramp up cleaning and disinfecting of all offsite and jobsite office facilities.
  - 6.1. Frequent cleaning of restrooms, equipment, tools, elevators, and commonly touched areas.
7. Practice social distancing per CDC guidelines and work in teams of no more than 10 people in one area. Adjust project/work schedules to comply with social distancing practices.
8. Require those who feel sick or presenting flu-like symptoms to stay at home.
9. Encourage employees to change and wash clothing when they get home or to use on-site facilities.
10. No visitors at job sites.
11. Supply additional sanitation stations. At a minimum, provide on every floor, every entry and every exit.
12. When working on an occupied dwelling, ask the occupant if he/she is sick and if they are, postpone work.
13. Supervisors must talk to employees to ascertain if any are ill or exhibiting flu-like symptoms.
14. Post additional signage at jobsites along the lines of the following:
  - 14.1. Have you been asked to self-quarantine or been diagnosed with COVID-19?
  - 14.2. Have you experienced the recent onset of any illness-related symptoms, such as fever, cough, or shortness of breath?
  - 14.3. Have you traveled outside of North America in the last 14 days?
  - 14.4. Have you been on any domestic travel within North America in the last 14 days?
  - 14.5. Have you been in contact with any of the following:
    - 14.5.1. Any person(s) who has traveled outside of North America in the last 14 days?
    - 14.5.2. Any person(s) who has been asked to self-quarantine?
    - 14.5.3. Any person(s) who has been diagnosed with COVID-19?

**DO NOT allow anyone who answers yes to any of these questions to enter the office or jobsite facilities.**

15. Monitor all government recommendations. Use the following links for additional information:
